

The WIOA summer program began with an opening day training at the SRESA on July 6th. Students completed hands on activities and learned valuable information about how to get a job and keep a job! Topics included: successful employee traits, good attendance, good work ethic, expected behaviors on the job, worksite safety, and good hygiene. Students also practiced filling out timesheets and applications.

Students also took a walk through Reality Store, a real-life simulation game, where they learned about wants vs. needs, making good decisions, the importance of getting their high school diploma and being a good employee!

Each student will complete a 5 week work experience with a local business. The students finished the opening day training ready and excited to begin their summer work experiences.
